

Journal Club Guidelines

- All journal articles **must** have the permission of the principal author to be used
- Journal club articles may be coordinated by an individual or group from the nominated DHB/organisation
- Coordination of the journal article includes:
 - Selection of a journal article – this may include but not restricted to renal topics
 - The development of 5-10 questions (as a guide) that are relevant to the chosen journal article – these may be multiple choice, short answer or written
 - Submission to admin@nzasrdp.com two weeks prior to the nominated date
- Each submission should include:
 - The journal article
 - The questions that have been developed
 - Evidence that permission has been given to use journal article from the principal author
